Well I know what can and cannot be 'cause it don't take much brains you see  
To figure out what's possible and what's that possibility  
A square peg don't go in a round hole you can't walk to rock and roll  
One thing that will always be there ain't no bishul in a kli shlishi

Ain't no bishul in a kli shlishi  
There ain't no bishul in a kli shlishi  
You can drive for all eternity  
There ain't no bishul in a kli shlishi  
Well a kli rishon a kli sheni well them a different case you see  
So go tell everyone who be  
There ain't no bishul in a kli shlishi

Well the sky is blue and so is the sea but don't try and kiss a bumble bee  
Cause you are you and I am me that's as plain as day to see  
The sun don't shine in the middle night two wrongs sure don't make a right  
One thing that will always be there ain't no bishul in a kli shlishi

(Ain't no bishul...)

Well the time has come for me to go I taught you everything I know  
Do, Re, Mi, Fa, Sol, La, Do... I gotta run and do my show  
I hope I didn't strain your brain I didn't mean to cause you pain  
Two plus two and ain't fifty three and there ain't no bishul in a kli shlishi

(Ain't no bishul...)
