We've been walking down a long road
That started back then with Adam in the Garden of Eden
We were slaves in Egypt with a heavy load
Until G-d told Moses he was gonna' give us our freedom.

Coming Home

The Chosen People are gonna' start coming home
The Chosen People are gonna' start coming home
Back to Canaan, milk and honey in the Promised Land.
It's one big family reunion in the family of man

(Coming Home...)

And were scattered to the four winds
We lost our homes, our land our temple and Freedom
We lived through everything they could give us
By the hand of G-d we're back with a brand new beginning.

Coming Home

The Chosen People are gonna' start coming home
The Chosen People are gonna' start coming home
Back to Canaan, milk and honey in the Promised Land.
It's one big family reunion in the family of man.
