My Daddy told me the story of little David who stood just five foot high  
One rock from his slingshot made ol' Goliath die  
People came from miles around just to shake his hand  
You see, it's not the size of the man in the fight it's the size of the fight in the man

I said amen, Hallelu, our prophets all say it's true  
You can do anything under heaven that you set your mind to do  
I said amen, Hallelu, with heaven as your helping hand  
You see it's not the size of the man in the fight,  
It's the size of the fight in the man.

The city of Jericho was mighty strong with walls up to the sky  
Joshua was up against ten-to-one, he did not bat an eye.  
He blew the ram's horn seven times circled around the town  
and the people of Jericho hit the road as the walls come tumbling down.

(I said amen...)

My Daddy's words they stayed with me they helped me through the years  
and they made me stand a little taller in the midst of fear  
He told me about the ten commandments spoke about the promised land  
he said "it's not the size of the man in the fight  
It's the size of the fight in the man."

(I said amen...)

It's the size of the fight in the man.
